
SUMMARY OF RESPONSES TO EXAMINERS

This summary applies to all HDR candidates.

Important

- If minor amendments are to be addressed, then please ensure that they are listed in the 'Revisions Made' column - including the thesis page number and stipulate what was addressed e.g.: do not write page 18 without comment/s.
- If substantial amendments are to be addressed, then you will need to stipulate the thesis page number and brief bullet points of the amendments - the detailed track changes will need to be included in the thesis.
